A short film by Volatize · November 28, 2026 · 9 min 25 sec · English

The dinner scene in Pillow Pounder.

The film

A man falls for a pillow with a simple face. As his romantic gestures grow more intimate, suspense creeps into an otherwise ordinary room. Pillow Pounder is an independent psychological comedy that borrows the sound and pacing of a thriller.

The filmmaker

Volatize is an independent recording artist and filmmaker from Hickory, North Carolina. After years of making music videos and skits, he made Pillow Pounder as his first completed narrative short.
